Selecting a Jurisdiction in the Cost Tracker Applications

This document will help you in selecting the correct jurisdiction in the WFMD cost tracking apps. (Rotor wing, Fixed Wing, & UAS)

- ☑ Application jurisdictions represent the various land management agencies throughout the Northwest Geographic Area Coordination Center (NWCC), along with fire districts, Northwest Compact, Idaho Department of Lands (IDL), and 1498 jurisdiction.
- ☑ Choosing the correct jurisdiction in the cost tracking apps relies upon referencing the incident number (i.e., WA-SES-000018), which can be found on resource orders (IROC), TAROs, and [WildCad](#)
- ☑ The unit identifier (the **SES** in WA-SES-000018) identifies the jurisdictional unit. The following section gives a thorough explanation of the different jurisdictional units.

Jurisdictions

- ☑ The following list highlights the fire jurisdictions commonly flown by WA DNR WFMD Aviation aircraft. It includes associated IROC/WildCAD unit identifiers (e.g., identifiers used in incident numbers) and the corresponding acronyms used in cost tracking applications.

- **Washington DNR**

- **Unit identifier will always start with WA & end in an S, i.e. WA-SPS-000000**

- **South Puget Sound**

- Cost tracking app = **DNR-SPS**
 - IROC unit identifier = **WA-SPS**
 - Example Incident number: WA-SPS-000000

- **Northeast Region**

- Cost tracking app = **DNR-NES**
 - IROC unit identifier = **WA-NES**
 - Example Incident number: WA-NES-000000

- **Northwest Region**

- Cost tracking app = **DNR-NWS**
 - IROC unit identifier = **WA-NWS**
 - Example Incident number: WA-NWS-000000

- **Southeast Region**

- Cost tracking app = **DNR-SES**
 - IROC unit identifier = **WA-SES**
 - Example Incident number: WA-SES-000000

- **Olympic Region**

- Cost tracking app = **DNR-OLS**
 - IROC unit identifier = **WA-OLS**
 - Example Incident number: WA-OLS-000000

- **Pacific Cascade Region**
 - Cost tracking app = **DNR-PCS**
 - IROC unit identifier = **WA-PCS**
 - Example Incident number: WA-PCS-000000
- **Federal Agencies**
 - **State identifiers do not matter.** Federal lands supersede state boundaries; therefore, a federal jurisdiction can exist in any state where federal lands are present.
 - **Example 1:** All National Forest identifiers end in an F, i.e. OR-DEF-000000 (Deschutes National Forest in Oregon) or ID-STF-000000 (Sawtooth National Forest in Idaho)
 - **Example 2:** All Bureau of Land Management (BLM) identifiers end in a D, i.e. OR-PRD-000000 (Prineville District Office in Oregon) or WA-SPD-000000 (Spokane District Office in Washington)
 - **US Forest Service (USFS)**
 - **Unit identifier will always end with an F (for forest), i.e. WA-OWF-000000 (Okanogan National Forest)**
 - Cost tracking app jurisdiction = **USFS**
 - **Bureau of Land Management (BLM)**
 - **Unit identifier will always end with a D (for district), i.e. WA-SPD-000000 (Spokane District Office)**
 - Cost tracking app jurisdiction = **BLM**
 - **Bureau of Indian Affairs (BIA)**
 - **Unit identifier will always end with an A (for agency) , i.e. WA-COA-000000 (Colville Agency)**
 - Cost tracking app jurisdiction = **BIA**
 - **National Park Service (NPS)**
 - **Unit identifier will always end with an P (for park), i.e. WA-NCP-000000 (North Cascades National Park)**
 - Cost tracking app jurisdiction = **NPS**
 - **US Fish & Wildlife Service (USFW)**
 - **Unit identifier will always end with an R (for refuge) , i.e. WA-LPR-000000 (Little Pend Oreille National Wildlife Refuge)**
 - Cost tracking app jurisdiction = **USFW**

- Other Washington Agencies
 - State identifiers will always be “WA”
 - Washington State Department of Fish & Wildlife
 - Cost tracking app jurisdiction = WDFW
 - Washington State Fire Marshalls Office
 - Unit identifier will always be WA-WFS
 - Cost tracking app jurisdiction = WFS
 - Washington State Department of Ecology
 - Unit identifier will always be WA-ECS
 - Cost tracking app jurisdiction = ECS
- Oregon Department of Forestry (ODF)
 - State identifier will always be “OR”
 - Unit identifier will always end in an “S”
 - i.e., OR-955S-000581 or OR-954S-000327
 - Cost tracking app jurisdiction = ODF
- Idaho Department of Lands (IDL)
 - State identifier will always be “ID”
 - Unit identifier will always end with an S (for state) , i.e. ID-PLS-000241
 - Cost tracking app jurisdiction = IDL
- * Washington House Bill 1498 Fires
 - Unit identifier will always start with WA & have a 4 letter jurisdiction code, i.e. WA-BENN-000063 or WA-YKCN-000325
 - Jurisdiction code is used to identify the county ordering the resources.
